Rich,

Today would be ideal so I can get things rolling on my end. It should take no more than 10 minutes. I would just like a little clarification from you so I'm on the same page as to how to present the data.

Thank you,

Steve,
Kelley and I are currently on a conference call (4pm) today. Do you still want to have the call yet today, or should we schedule something for Monday?
Let me know.

Steve,

It would be best to include Kelley on that call, since she is really the lead for our data management.
